Education

COER University, Roorkee, Uttarakhand **2024 – 2026**
Master of Computer Applications (MCA) *CGPA: 8.75/10*

Maa Shakumbhari University, Saharanpur, UP **2021 – 2024**
Bachelor of Computer Applications (BCA) *CGPA: 8.2/10*

Experience

Bharuwa Solutions Private Limited, Haridwar **Jul 2026 – Present**
Software Engineer Intern

- Contribute to enterprise healthcare and wellness applications using Angular, TypeScript, C#, ASP.NET Core, and MongoDB.
- Implement reusable Angular components and parent–child component communication for data-driven application workflows.
- Integrate RESTful APIs for application functionality, including authentication and role-based access.
- Debug and test assigned features, collaborate with senior engineers, and incorporate feedback to improve application workflows.

Bangmetric Services Private Limited, Noida **Nov 2025 – Dec 2025**
ServiceNow Intern

- Assisted in developing and automating ServiceNow workflows for enterprise process management.
- Investigated and resolved assigned backend workflow issues while collaborating with team members.

AccioJob Private Limited (Remote) **Mar 2024 – Jun 2025**
Java Full-Stack Trainee (Training Program)

- Built full-stack applications using Java, Spring Boot, React, and relational databases.
- Designed RESTful APIs and integrated them with frontend interfaces; used Docker to containerize Spring applications for consistent deployment.

Projects

NEXORA Vision 360 — Multi-Tenant Field Service Management Platform Demo | GitHub
Java, Spring Boot, Spring Security, Spring Data JPA, JWT, Angular, MySQL, PostgreSQL, Redis, Docker, Gemini AI

- Developed a multi-tenant business management platform with RESTful APIs for customer management, service requests, job tracking, inventory, invoicing, and payments.
- Implemented organization-scoped data access, JWT authentication, and role-based authorization using Spring Security to support secure multi-tenant operations.
- Designed backend modules using Spring Boot and Spring Data JPA, integrating Angular workflows with REST APIs.
- Integrated Gemini AI to provide technician troubleshooting assistance and automated service-request summaries.

AI-Powered Fitness Tracker — Microservices Architecture Demo | GitHub
Java, Spring Boot, Spring Cloud (Eureka, Gateway), React, Apache Kafka, MySQL, MongoDB, Docker, Keycloak (OAuth2), Gemini API

- Developed a microservices-based fitness platform using Spring Boot, separating user management, activity tracking, and AI-powered recommendations.
- Implemented RESTful APIs and asynchronous, event-driven communication using Apache Kafka for activity processing and recommendation workflows.
- Configured service discovery with Eureka, API Gateway routing, and centralized configuration using Spring Cloud.
- Integrated Keycloak with OAuth2-based authentication and authorization to secure communication across services.

Technical Skills

Languages: Java · SQL · JavaScript · Python · C · C++
Backend: Spring Boot · Spring Security · Spring Data JPA · Hibernate · RESTful APIs · Microservices · JWT/OAuth2 · ASP.NET Core · Node.js (basic)
Frontend: React · Angular · TypeScript · HTML5 · CSS3 · Bootstrap
Databases & Messaging: MySQL · PostgreSQL · MongoDB · Redis · Apache Kafka
Testing & Code Quality: JUnit 5 · Mockito · Unit Testing · SonarQube
Tools & Platforms: Git · Docker · Postman · Swagger/OpenAPI · Oracle Cloud Infrastructure (OCI) · Keycloak · Linux
Concepts: Data Structures & Algorithms (DSA) · Object-Oriented Design · SDLC · CI/CD (basics)

Certifications

- Oracle Cloud Infrastructure 2025 Certified DevOps Professional (valid Oct 2027)
- NPTEL Elite Certificate: Programming in Java (Score: 76%)
- Oracle Cloud Infrastructure 2025 Foundations Associate
- JPMorgan Chase Software Engineering Job Simulation (Forage)
- Java Full Stack Development — AccioJob (Course Training)
- GitHub Copilot & AI Tools (Simplilearn SkillUp)
